

RENAISSANCE®

## Working Together to Advance Learning

The Sadlier and Renaissance partnership creates a prescriptive analysis for growth and achievement by mapping the results from a Renaissance Star Math® assessment to learning objectives and resources in Sadlier's core math programs, *Sadlier Math™* and *Progress® in Mathematics*. This special bundle is available online only and includes eBooks, Online Assessments, Reteach sets, and Interactive Practice sets.

**Create a seamless connection between assessment and instruction.**

# Individualize Learning with Research-Based Assessments

## Connect Your Students' Renaissance Star Math Scores to Sadlier's Core Math Programs

### Here's How It Works!

On the Renaissance platform

1

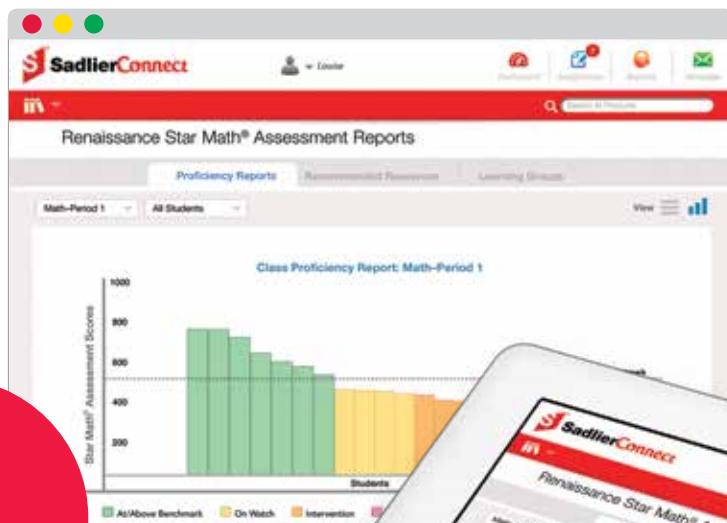

Assign students the Star Math assessment.

View Star Math's assessment results.

See all students' data in one place on the Proficiency Report, including benchmark levels and scaled scores.

On Sadlier Connect™

A bar-graph version of the Proficiency Report provides a quick view of class details.

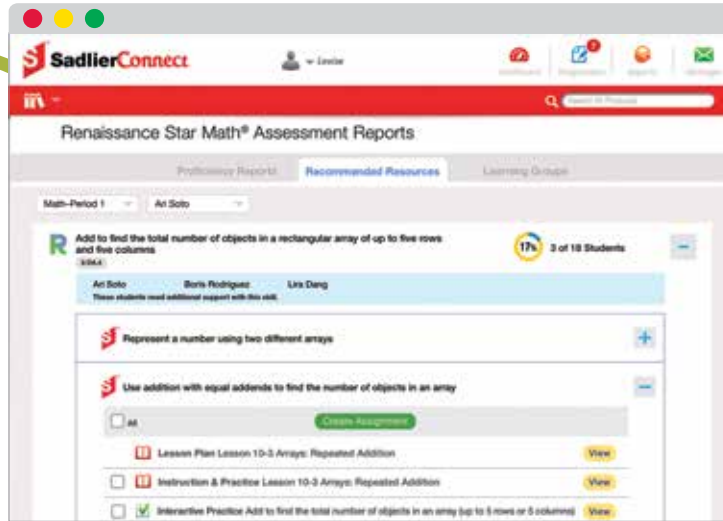

Student	Score	Category
Student 1	950	All Above Benchmark
Student 2	900	All Above Benchmark
Student 3	850	All Above Benchmark
Student 4	800	All Above Benchmark
Student 5	750	All Above Benchmark
Student 6	700	All Above Benchmark
Student 7	650	All Above Benchmark
Student 8	600	All Above Benchmark
Student 9	550	All Above Benchmark
Student 10	500	All Above Benchmark
Student 11	450	On Watch
Student 12	400	On Watch
Student 13	350	On Watch
Student 14	300	On Watch
Student 15	250	On Watch
Student 16	200	On Watch
Student 17	150	On Watch
Student 18	100	On Watch
Student 19	50	On Watch
Student 20	0	On Watch
Student 21	0	Intervention
Student 22	0	Intervention
Student 23	0	Intervention
Student 24	0	Intervention
Student 25	0	Intervention

3

## Identify the skills students need to learn.

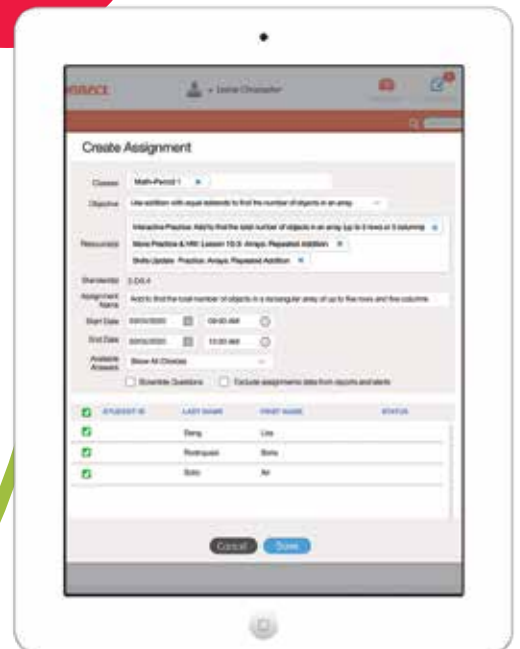

Use the Recommended Resources Report to understand the learning objectives that students need to achieve and the resources that can help.

4

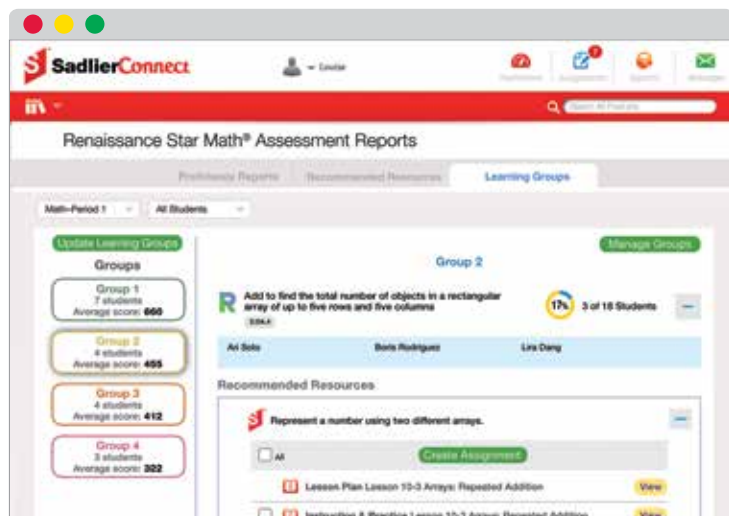

## Take students to the next level.

Immediately assign recommended resources to target gaps in skills and to meet individual needs based on data.

## Learning Groups are Created Easily

Learning Groups are automatically created to support teachers in providing targeted instruction and monitoring progress of students with similar skills. Groups can be adjusted as needed.

Reassign the Star Math assessment as needed.
